Shockwave Therapy

Non-invasive, drug-free relief for pain, recovery & men's wellness.

"We screen you like a medical practice, because we are one."

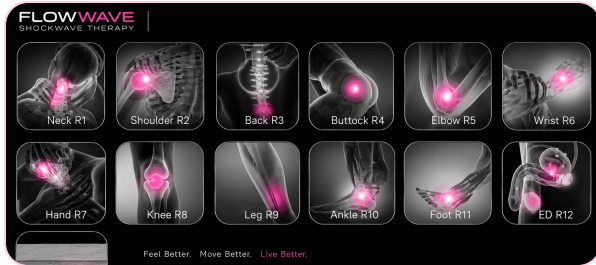

FLOWWAVE™ FOCUS · FOCUSED SHOCKWAVE

THE SCIENCE

How it works

FlowWave™ FOCUS uses an electrohydraulic spark-gap system with a saline-filled head to send focused acoustic waves deep into tissue — targeting the source of discomfort.

- 1 Spark-gap discharge**
A precise spark fires in the saline-filled head.
- 2 Acoustic wave**
A pressure wave forms, traveling over 3,500 mph.
- 3 Focused delivery**
Energy converges deep in tissue — up to 12 cm.
- 4 Healing response**
Supports blood flow & the body's natural repair.

COMMON QUESTIONS

Does it hurt?

Most feel a firm tapping sensation — intensity is set to your comfort.

How many sessions?

Often a short weekly course — your NP maps a plan at your free screening.

Is there downtime?

None — sessions run 3–10 minutes and you return to your day.
